Designed for Workplace Testing

NOBODY DOES IT BETTER THAN LIFELOC

Rugged and Reliable

Lifeloc instruments have been proven over time, with thousands of satisfied users. Our equipment is designed and constructed with the highest quality components available for years of trouble free use.

Simple, User-Friendly Features

Test results are fast! Software-driven operation is simple and intuitive. Automatic altitude compensation for dry gas calibration, EasyMode™ software for DOT testing, and a host of user selectable features - all standard equipment on the Phoenix.

Superior Value

The unique combination of features, accuracy, ease-of-use and quality, combined with the best warranty in the industry, offer Phoenix users unsurpassed value.

Equipment Training

Lifeloc Technologies utilizes a national network of Certified Master Trainers to provide you and your staff the certifications required to meet your specific needs. All Lifeloc Trainers are experts on our products as well as DOT rules and regulations. To locate the Master Trainer in your area, please call 800-722-4872 or e-mail training@lifeloc.com.

The Phoenix evidential breath alcohol testing instrument, portable impact printer and dry gas calibration kit all in one convenient carrying case.

Total Support

Lifeloc's Five Star Customer Care sets a new standard... the standard for fast, friendly, professional and affordable service. Customer oriented support programs - such as comprehensive extended service plans which include complimentary equipment rentals - help keep your testing program operational at all times.
